President's Message *by Al Rendon, WT6K*

I'd like to ask all the membership to join me at the October 8th SBARA meeting for the induction of Ted Cameron, N6BFO, as a Life Member of SBARA. Ted has been a valuable technical resource for SBARA and one of the originators of our annual Field Day in Central Park. I'm sure that Ted would be pleasantly surprised if all his friends showed up for the presentation. Please come and show your support for Ted as we honor him for his years of contribution to the Association.

I know that it is early to talk about the Christmas dinner but we have reserved the Veteran's Hall on Friday, December 3rd for our annual Holiday Pot-luck Dinner. Last year's event was well attended and a huge success. If you missed it be sure and attend this year. Mark your calendar for December 3rd.

We will have elections in November. As announced at the September meeting we will be taking nominations from the floor at the October meeting. There are positions that need a nomination. Secretary is one for example. Membership Chairperson

is another. We have a great core of people on the leadership team. If you would like to join us or know of someone who would, please make it know at the October meeting.

I've been in Los Angeles for a couple weeks helping my elderly mother. Because of my absence I've suggested that the Spaghetti dinner be postponed and that we have a regular meeting in October. Everyone involved agreed to have the dinner some other time when we can do justice to the planning and advertising of the event. I've heard 'rumors' that there will be hamburgers cooked for those who are interested in eating with the group prior to the business meeting and presentation.

The Raffle in October is for an Arrow antenna system. With the addition of you HT you can begin working satellites like AO51 (ECHO). Don't miss the chance to win this great prize. See you on October 8th at the Veteran's Hall in Niles.

73, Al WT6K

October Program Announcement

Have you ever thought about how hams like you and I make contacts on the 10GHz and Up bands? This month's program will show you how it is done using the presenter's experience in this year's ARRL 10GHz and Up contest. The presentation will describe how two stations 'hook-up' and align the 'System' to create a 'path'. You will learn how they determine bearings to 'roughly' align the parabolic antennas, set the frequency on which they both will transmit and listen, and how they fine tune the alignment of the antennas for the best signal strength. Included will be a tutorial on how 10Ghz signals are generated and received using modern Transverters. Finally, some to the DX results on both 10GHz and 47Ghz will be presented. Come join Al Rendon, WT6K as he goes over the tricks of the trade. You may be surprised how easy it is and yet how many steps two hams go through just to make one contact.

From the VP — September

At our September meeting I had the pleasure of drawing the 2 tickets for the August Hayward Zucchini Festival participants. This event provides a significant amount of SBARA's yearly revenue and the September drawing was held to provide all of the volunteers a chance at winning the two ICOM IC-T2H 2M handie talkies that the SBARA board authorized as incentives. The 2 lucky winners were Brian Wong KE6ITT and Elmer Gamoning. Please join me in congratulating the lucky winners! In addition the board thanks each and every individual who volunteered their time to help provide the necessary communications for the festival.

The September first prize (a Yaesu FT-2800M 2M mobile) was snagged by Ernie Anaya KF6FFE. Ernie continues to have great luck in our raffle...we all need to study his excellent operating technique! Congratulations Ernie!

With the availability of A0-51 (ECHO) comes an Arrow II Model 146/437 – 10WBP portable satellite antenna for our October raffle. This model is easy to assemble / disassemble / transport and has a 10W duplexer built right into the handle. A 5W HT and a prediction of the AOS for one of the FM satellites will have the winner making contacts in the US, Canada & Mexico. As usual there is a \$5.00 for 5 tickets minimum buy in for the raffle with additional tickets at \$1.00 each. I'm looking forward to giving this prize away so be sure and be there!

Arrow II Model 146/437

Try Our Burgers

& Hot Dogs!

In keeping with our great experiment with food at club meetings SBARA will be serving the same hamburger & hot dog deal that we offered at our August meeting...hamburgers will be \$3.00 each and hot dogs will be \$1.50 each with all the condiments.

Plan on attending and joining our little repast...bring a friend or a spouse!

SBARA Membership Form (Dues paid annually)
